Profile

Software Engineer — Full-Stack Developer

Developer skilled in Django, DRF, React, and PostgreSQL, specializing in building scalable and secure web applications. Passionate about back-end development, API design, Improving front-end functionality and user experience.

Education

Bachelor's degree in computers and Ai – Sohag – **2023**. GPA: **3.3**   Graduation Project: **A**

Internships

ITI Track Full Stack Using Python — ITI   **Dec 2024 - April 2025**

- Gaining expertise in: **Back-End:** Python, Django, DRF, Flask, Odoo, PostgreSQL, MySQL, Linux, Bash, Git, GitHub, Docker. **Front-End:** React, Next.js, Bootstrap, Tailwind, JavaScript, HTML5, CSS.

Artificial Intelligence courses — Samsung Innovation Campus   **July 2021 - Mar. 2022**
- Related Coursework: Math, python, Data visualization, Data Analyses, Machine learning, Deep Learning.
- My Graduation Project: covid-19 detection using deep learning

Coding & Programming — Samsung Innovation Campus   **Dec 2019 - Mar. 2020**
- Related Coursework: (Coding, Problem Solving, Python, C, DS/Algorithms, and Arduino)
- My Graduation Project: smart home with IOT.

Experience

Samsung — Team Leader & Instructor, *Samsung Innovation Campus project*   **August 2022 – Mar 2023**
- Managing a team of Instructors and Facilitators consisting of 20 people's
- Support with instructing skills for the topics (Python, C, Problem Solving, and DS/Algorithms)

GDSC — Web Instructor   **July 2022 - Oct. 2023**
I have taught more than 50 students the basics of Web development.

Samsung — Programming Facilitator, *Samsung Innovation Campus project*   **Jan 2021 - Jan 2022**
- Support with facilitating skills for the topics (Problem Solving, Python, C, DS/Algorithms, and Arduino)

Projects

Graduation Project: College ERP System & Face Recognition (Django, PostgreSQL)–: - GitHub Repository

Coffee Shop Website: (Django-MVT, DRF, PostgreSQL, Bootstrap, Postman) –: - GitHub Repository

ITI Platform Clone: (Django-MVT, DRF, PostgreSQL, Tailwind, Postman) –: - GitHub Repository

Static E-Commerce Website: (JS, ES, HTML5, CSS3) –: - GitHub Repository

Database Engine: (Bash Scripting, Linux) –: - GitHub Repository

Technical Skills

Programming Languages:
Python, JavaScript, C++, C, Bash scripting

Frameworks & Libraries:
Django, Flask, React, Next

Back-end Development
Restful API, SQL, PostgreSQL, Git, GitHub, Docker, JWT

Front-end Development:
HTML, CSS, JavaScript, jQuery, Bootstrap, Tailwind
